

QYO BT+

WORLD'S FIRST MODULAR MEASUREMENT RESPIRATOR FOR BREATHING TRAINING

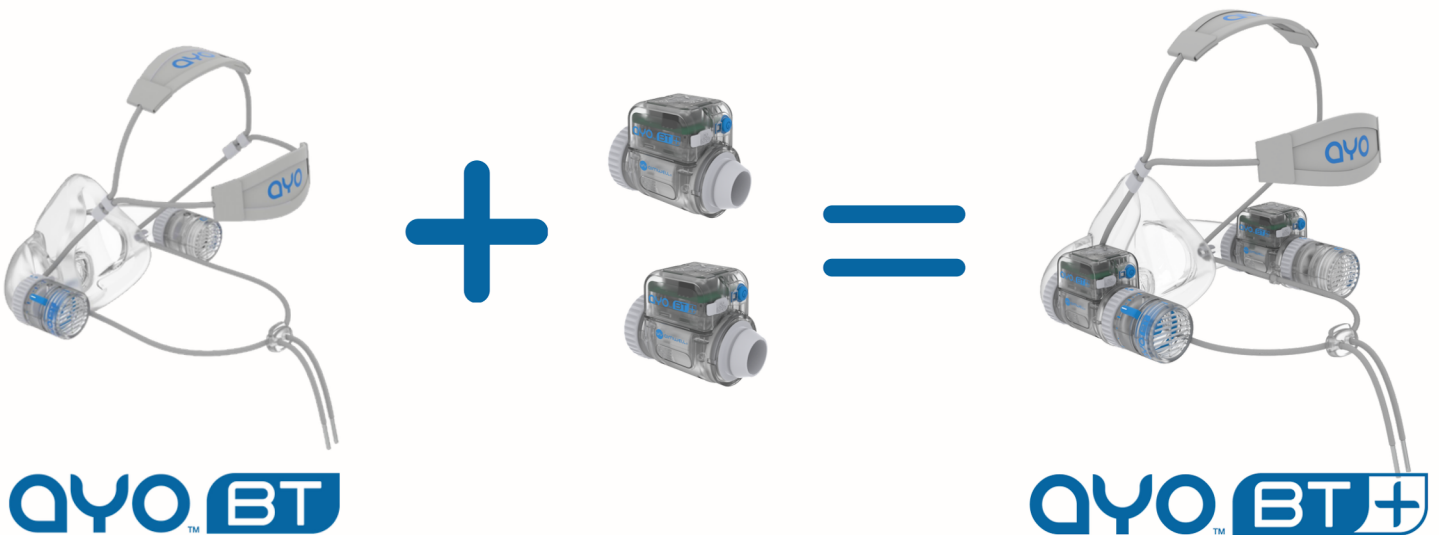

QYO™ RESPIRATOR

AYO BT+™

AYO BT+ is a novel breathing training and measurement respirator series invented for breathing training, measurement, and monitoring for asthmatics, sports, and general health.

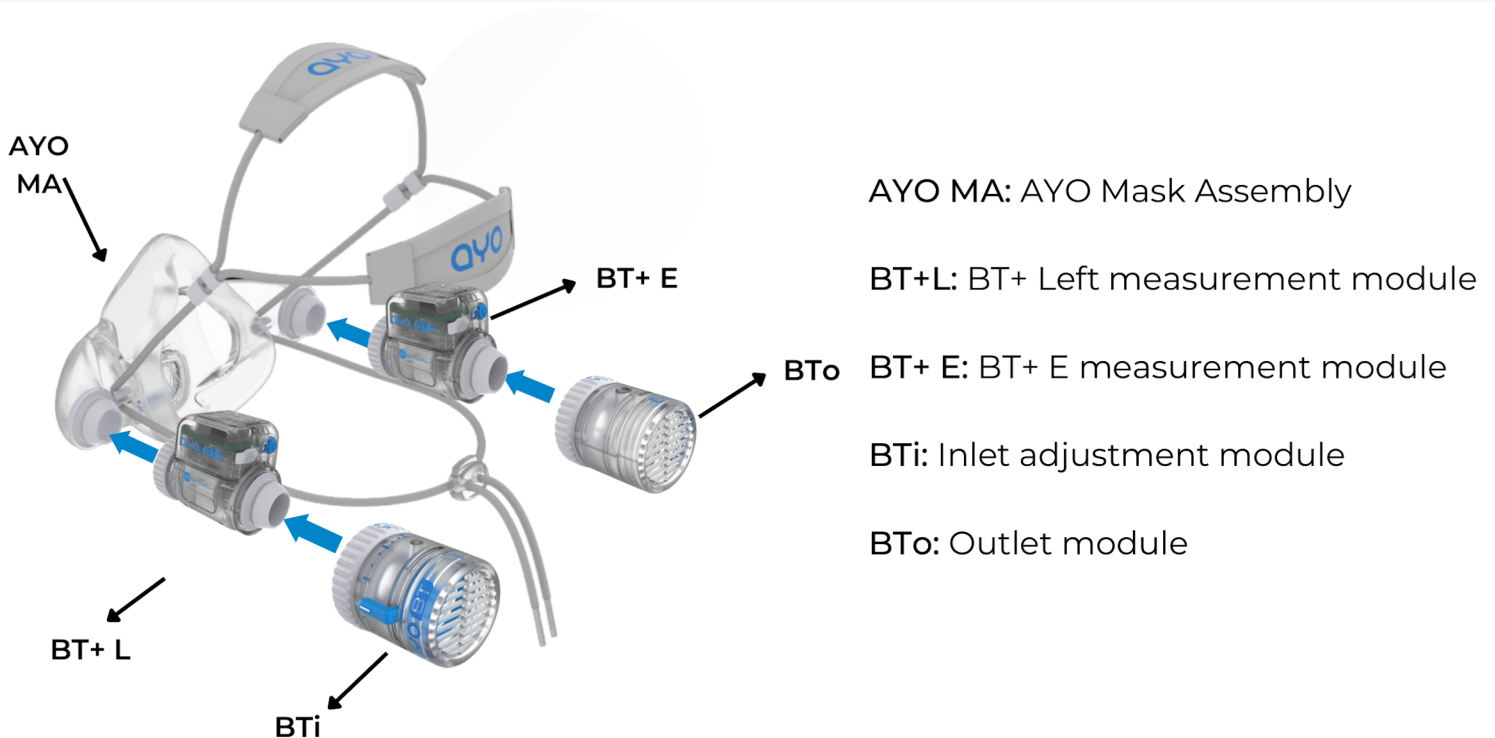

It consists of an entry-level breathing trainer AYO BT plus one or two measurement modules, with Apps available on iPhones and Android-based mobile phones.

Thanks to the unique modular design, the BT+ can be configured and used for breathing measurement, asthma monitoring, Buteyko Reduced Breathing practicing, as well as diaphragmatic breathing training via nose offered by AYO BT.

Simple operation:

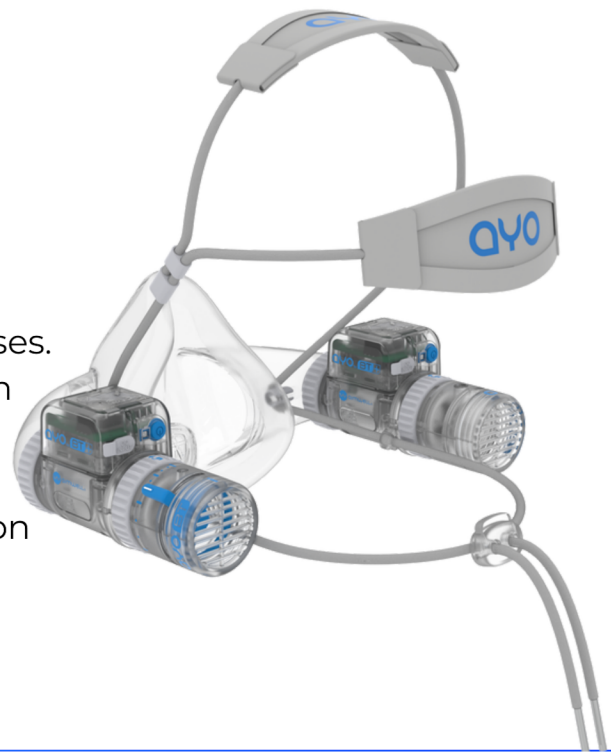

- Connect the BT+ system
- Wake up the BT+ modules
- Run the AYO BT+ App
- Pair the BT+ modules
- Wear the mask
- Use real time screen to start monitoring your breathing.
- Or Select the featured exercises and test.
- Off you go and enjoy!

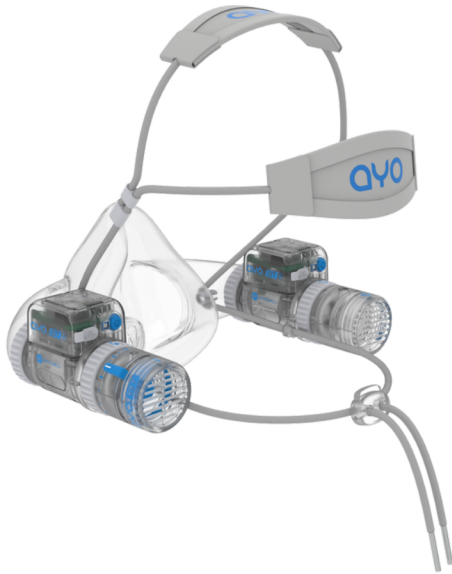

KEY MEASUREMENTS INCLUDE:

- Spirometry testing.
- Real-time breathing waveforms.
- Breath Rate, Minute ventilation, Tidal volume.
- Peak Inhalation and Exhalation Flow.
- Inhalation and Exhalation time and pauses.
- Control Pause, Breath-hold on Inhalation and Exhalation.
- Power of breath and work of breath.
- Summary breathing report for meditation and exercises.

Real time screen to measure your breathing

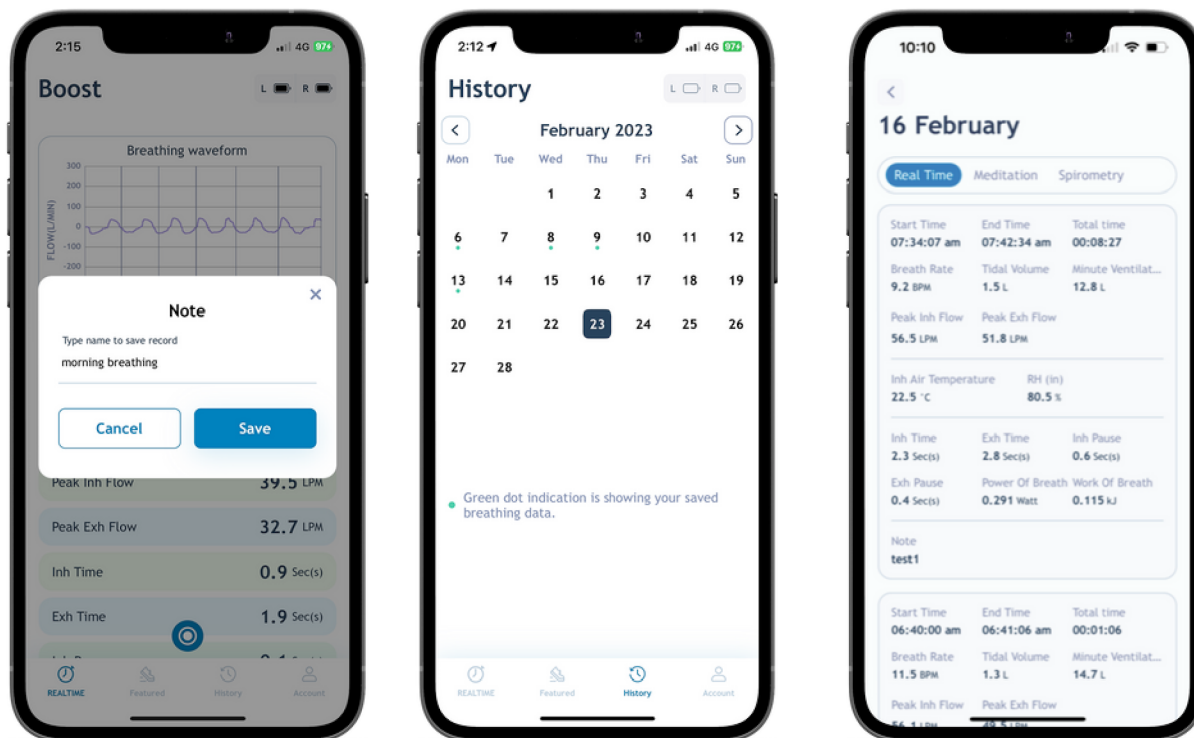

You can monitor your breathing for any exercises you may perform, such as any Buteyko exercises, gym workouts, running on a treadmill, or even monitoring your breathing during sleep!

For the first time, you have an easily accessible tool to measure breathing that complements heart rate for your vital health metrics.

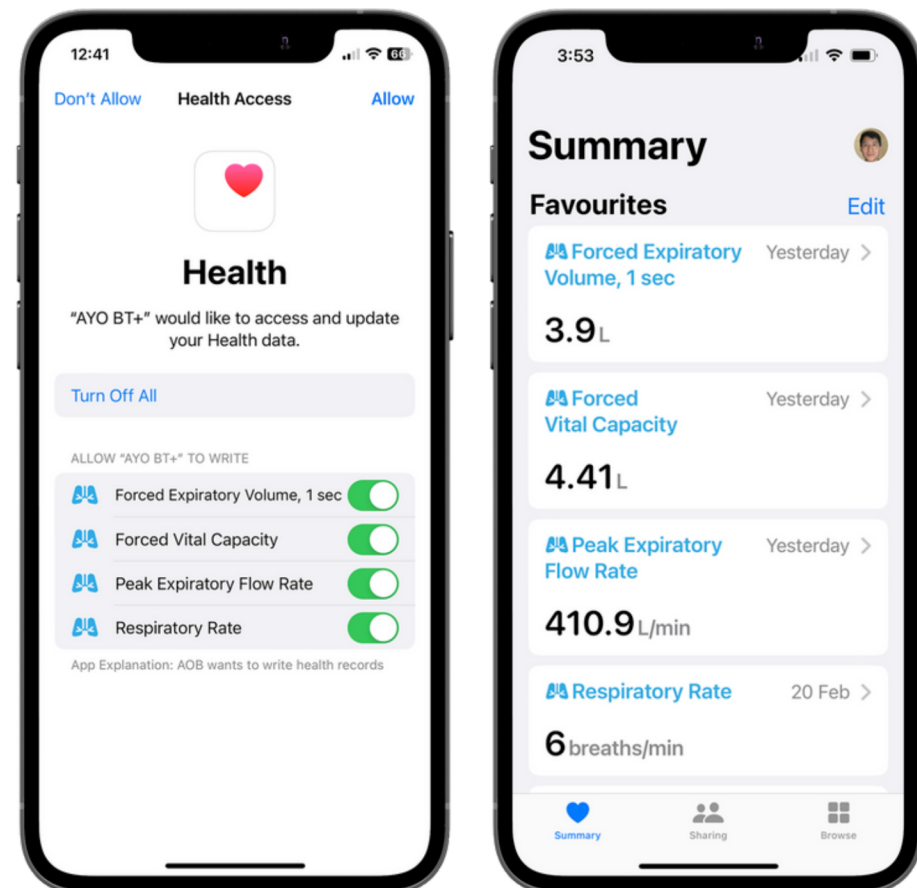

Choose the desired featured exercises or test

Save and monitor history measurement data

Link Lung Function and Breath Rate Data to Your Apple Health

For the first time, your Apple Health information is more complete with the missing vital sign of your health – Breathing.
